

# ABK Footprints Preschool

## The ABK Program

Our preschool is designed to develop children's emotional and social well-being. Our curriculum builds upon your child's past and present experiences and promotes lifelong learning skills. ABK Footprints Preschool's goal is for each child to develop positive self awareness concepts while addressing physical, cognitive and language needs.

Our program will:

- Support individuality and self-worth
- Help children feel confident, comfortable and secure
- Enable children to learn problem solving skills, while developing friendships
- Encourage participation and contribution both inside and outside of class
- Focus on fun, exploration and discovery
